In addition, all owners are charged a \$150 annual administrative fee, in two \$75 installments- January and July.

Estimated Annual Income

Above Par does not guarantee that these income levels will be achieved, as there are a number of external factors that could favorably or unfavorably impact the rates and occupancy levels.

Exclusive Owner Rental Agreement

Above Par makes it extremely easy and flexible for homeowners to participate in the rental program of his/her choice. The homeowner signs a simple rental agreement that is a yearly rental commitment. This contract automatically renews each year unless we receive a 30 day written notice of cancellation. See Exhibits [2 - U.S. Owners] & [3 – Foreign Owners]. An owner inventory form is also completed with the assistance of the **Above Par** staff that is kept on file at the rental office and updated regularly. See Exhibit [4].

If an owner decides not to renew the rental agreement, but wished to retain the current tenant, a \$500.00 fee will be collected, from the owner, for costs incurred in securing said tenant.

Foreign Owners

Above Par has extensive experience in dealing with rental properties for foreign owners. Foreign customers must file a W8ECI or a W8BEN electing how they will treat their U.S. income. If an owner does not have a U.S. social security number or ITIN number, he/she must apply for one using the W7 form. He/she is required to file a U.S. tax return on all U.S. income and will receive a 1042S each year stating his/her income total.

Foreign owners are encouraged to contact Marie Keegan, Broker-in-Charge, at **Above Par** to discuss paperwork requirements.

Improving Rental Income & Great Expectations

We would like to take this opportunity to welcome you to the program and make some recommendations that should help you maximize your rental income. Since our common goal is to rent your unit as often as possible, it's most important that you understand that a unit can produce more income if it's properly furnished and decorated.

There are many factors that play a part in the selection of a unit such as view, pool availability, accessibility, security, etc., but none as important as furnishing. Your goal should be to provide a unit that will encourage reoccurring rental.

The following points are some of the most critical to increasing your income:

- It is required that all owners on the vacation rental program install a telephone, washer/dryer, microwave, DVD player, iron and ironing board, vacuum cleaner, and blankets for sofa bed. **One of the most important factors in selecting a unit is to have WiFi available.**
- The finishing touches, such as furnishings, wall decorations and comforts of home are very important in making your unit appealing. The first impression of your unit is important. The more comfortable a unit, the more repeat clients you can expect. Please remember that a vacationer wants to feel that your unit is their retreat. It is encouraged to make your rental as visually appealing as possible without the renter feeling they are intruding on your personal space.
- The rental company is not responsible for any theft or missing items. Although incidence of missing items is rare it is a good idea to purchase contents insurance. This is available through all major carriers. You must buy this insurance in South Carolina.
- Our cleaning company does a superior job. However, if on arrival you find something that is not satisfactory, please let us know immediately. As the owner you may clean your unit upon departure but it must meet our cleaning standards (cleaning standards are attached within packet). You must also provide trash liners, wrapped soap, and toilet paper. The owner is also required to schedule a spring/fall cleaning each year.

- If you are interested in long-term rentals, please let us know. On long-term rentals we require the owner to keep the electric in his/her name and the tenant will pay the monthly bill which will be reimbursed to you monthly. If you are interested in long-term (6 months or more) rentals, do not install a telephone.
- On all long-term rentals, we collect a unit security deposit of one month rent plus \$100. We also collect \$100 security for the electric, and \$50 for extra cleaning. From this amount we will deduct all outstanding bills. If the tenant has fulfilled his/her lease requirements the balance is returned to them. If the tenant has not fulfilled their requirements, the remaining amount will be deducted from the security deposit. We do run a credit check on each tenant through Equifax so we can determine a renter's credit liability. We also check references, and do a criminal check for each prospect. Real Estate laws in much of the country favor the tenant and South Carolina is no different. Although we insure the means to prevent lease terminations it is very difficult and expensive to pursue a tenant if he/she breaks their lease, particularly if they leave the state.
- Lastly, sometimes due to economic climate, and the purchase price of the property, it may not always be possible to recognize a financial gain. In all probability, this event will not take place. However, our goal is to market our area using the latest technology to insure the highest return on your investment.
